

Control your security and comfort with
Sucre Box

Be alerted... immediately

Whether it's an intruder, the presence of smoke or carbon monoxide... in your home, Honeywell Cloud Services will automatically alert you by email or text message ⁽¹⁾.

(1) Text message : optional service.

Keep an eye on your home

Thanks to the motion detector with built-in camera, if an intrusion takes place for example, images are recorded, transferred and stored on the Honeywell Cloud.

You can access the images on a smartphone or tablet, wherever you are with the **Total Connect Comfort International App**.

You can even request additional live images if you wish.

The detector includes an LED light which ensures perfect image quality even in low lighting conditions.

Wireless motion sensor with camera

User-friendly system

You can control the system in a way that best suits you.

Keypad with badge reader and siren

Badge

With the keypad – badge reader

The keypad has been designed to give ultimate comfort with large touch keys that automatically light up when you open the door to your home where the alarm was already on.

With keyfobs

An easy stress free way to set and unset your system.

Four buttons keyfob

With Total Connect Comfort International App

- You may forget to set your alarm before leaving home?
- Your children may arrive home earlier than planned?

Simply use the intuitive **Total Connect Comfort International App** to control your system remotely, wherever you are.

Save energy by controlling your heating

Using the **Total Connect Comfort International App**, you can remotely manage your Honeywell evohome thermostat.

For example, using the App you can easily reduce the temperature level when you turn on your alarm, or increase it when you turn off your alarm.

Choose the type of connection to the Honeywell Cloud

To connect to the Honeywell Cloud, **Sucre Box** is connected to your Internet box ⁽²⁾.

The **Sucre Box+** model includes an integrated SIM card⁽³⁾ module which enables a secure link to the Honeywell Cloud using the mobile phone network. This is ideal in situations where connection issues with the Internet box or mains power loss may arise.

⁽²⁾ Network cable supplied.

⁽³⁾ Services cost included for a two year period.

A proven and recognised technology

Sucre Box uses the same radio technology as Domonial, one of the most popular remotely monitored wireless security systems in Europe, and which has already been chosen by more than two million customers.
